Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3 and 8-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Gesenhues et al (5451870). Gesenhues et al discloses the same invention as claimed: A detector comprising a moving part (the piston) in pipe 1 with a permanent magnet 5 connected to the moving part and a magnetic field sensor 7 located outside of the pipe (see Fig.3), wherein the magnetization of the permanent magnet runs in a direction that has a radial extension component with reference to the axis of the pipe, magnet 5 located in the reduce connecting section between 2 head sections (see Fig.3 at 5 between 8 and the other side section.

Claims 1-3 and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Kim et al (20030066361 A1). Kim et al discloses the same invention as claimed: A detector comprising a moving part 100 in a pipe with a permanent magnet 106a connected to the moving part and a magnetic field sensor 110 located outside of the

Art Unit: 2862

pipe, wherein the magnetization of the permanent magnet runs in a direction that has a radial extension component with reference to the axis of the pipe (see paragraph 0023).

It is the Examiner's position that "the preamble is given weight if it breathes life and meaning into the claim." Here, the term "position" in the preamble of claim 1 breathes no "life and meaning into the claim," and therefore is given no weight in the construction of the claim.

Although specific columns, figures, reference numerals, lines of the reference(s), etc. have been referred to, Applicant should consider the entire applied prior art reference(s).

Applicant's arguments with respect to claims 1-3 and 8-9 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2862

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
